Обозначение центрирующих колец (адаптеров)

CB01 - 67.1-54.1
CB02 - 67.1-56.1
CB03 - 67.1-56.6
CB04 - 67.1-57.1
CB05 - 67.1-58.1
CB06 - 67.1-59.1
CB07 - 67.1-60.1
CB08 - 67.1-63.4
CB09 - 67.1-65.1
CB10 - 66.6-57.1
CB11 - 67.1-64.1
CB00 - центрирующее кольцо не требуется

Примечания:

1. БК - установка колеса возможна только без колпака.
2. std - стандартная низкая вставка.
3. high – высокая вставка, в поле "Примечание" означает, что при установке колеса на данный автомобиль необходимо использовать высокую вставку. В комплект колеса входит стандартная низкая вставка (std).
4. CB66.1x64.1 – при установке колеса используйте центрирующее кольцо с размерами 66.1x64.1 мм. В случае установки колесного диска на ступицу автомобиля без адаптера центрирование колеса будет осуществляться по крепежным отверстиям (FH). Данный вид центрирования допускается при условии, что форма сопряжения коническая и соблюдаются правила затяжки гаек.
5. FH - центрирование колеса можно осуществить только по крепежным отверстиям (FH). Данный вид центрирования допускается при условии, что форма сопряжения коническая и соблюдаются правила затяжки гаек.
6. Тип ТС – тип транспортного средства («тип кузова»).
7. Bolt M12x1.5 – тип (Bolt - болт, Nut - гайка) и размер резьбы оригинальных крепежных элементов колеса автомобиля, здесь: болт с метрической резьбой диаметром 12 мм, шагом 1.5 мм.
8. CB03 - код центрирующего кольца, которое необходимо использовать при установке колесного диска на автомобиль.
9. DIA - диаметр центрального отверстия колесного диска.
10. DIAa - диаметр центрирующего выступа ступицы автомобиля.
11. (Japan) - автомобиль с правым расположением руля.
